

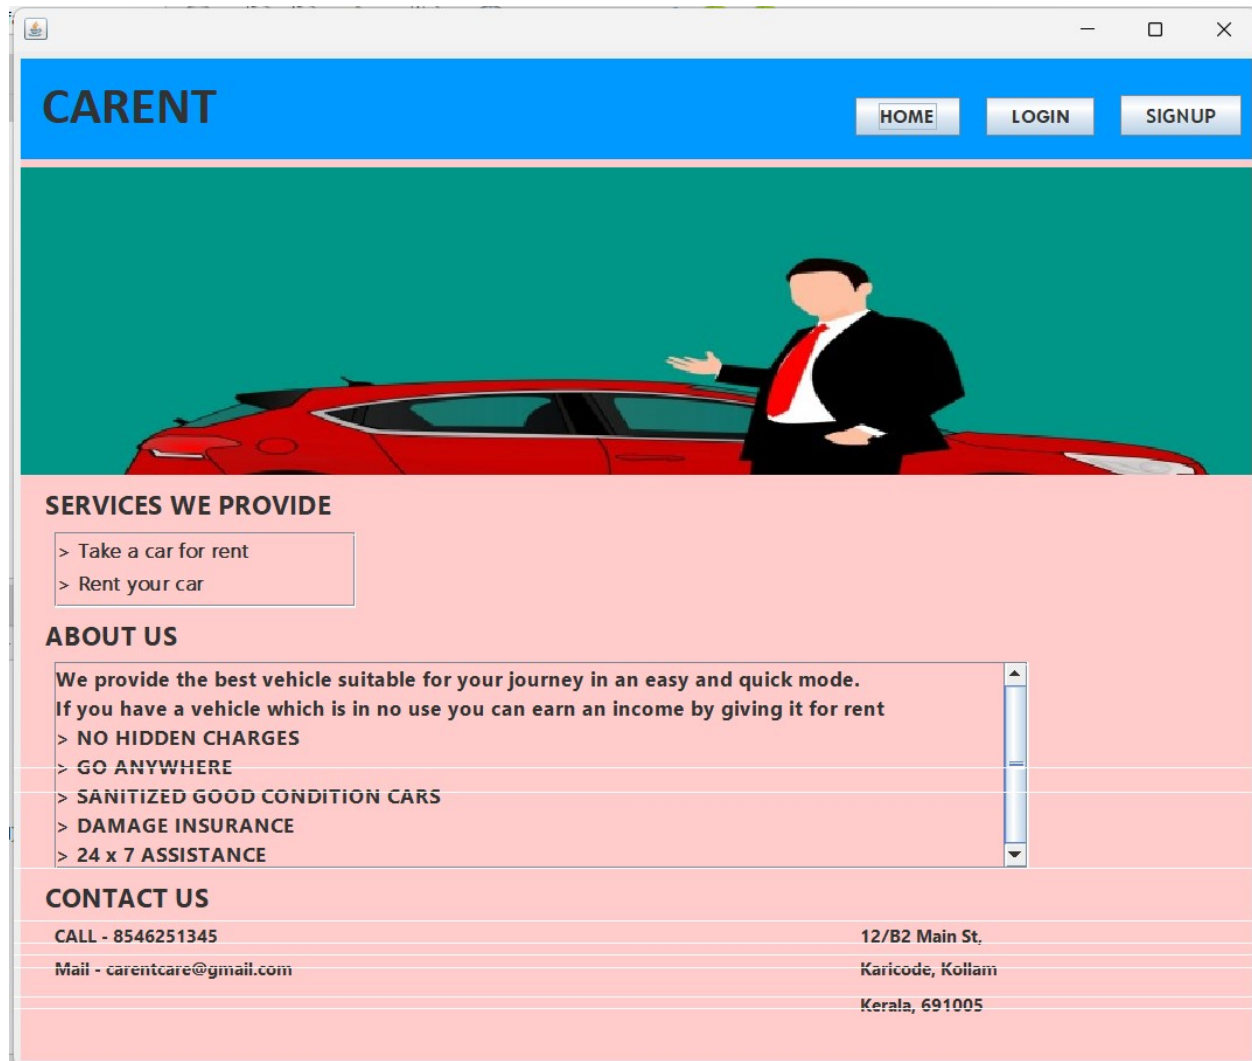

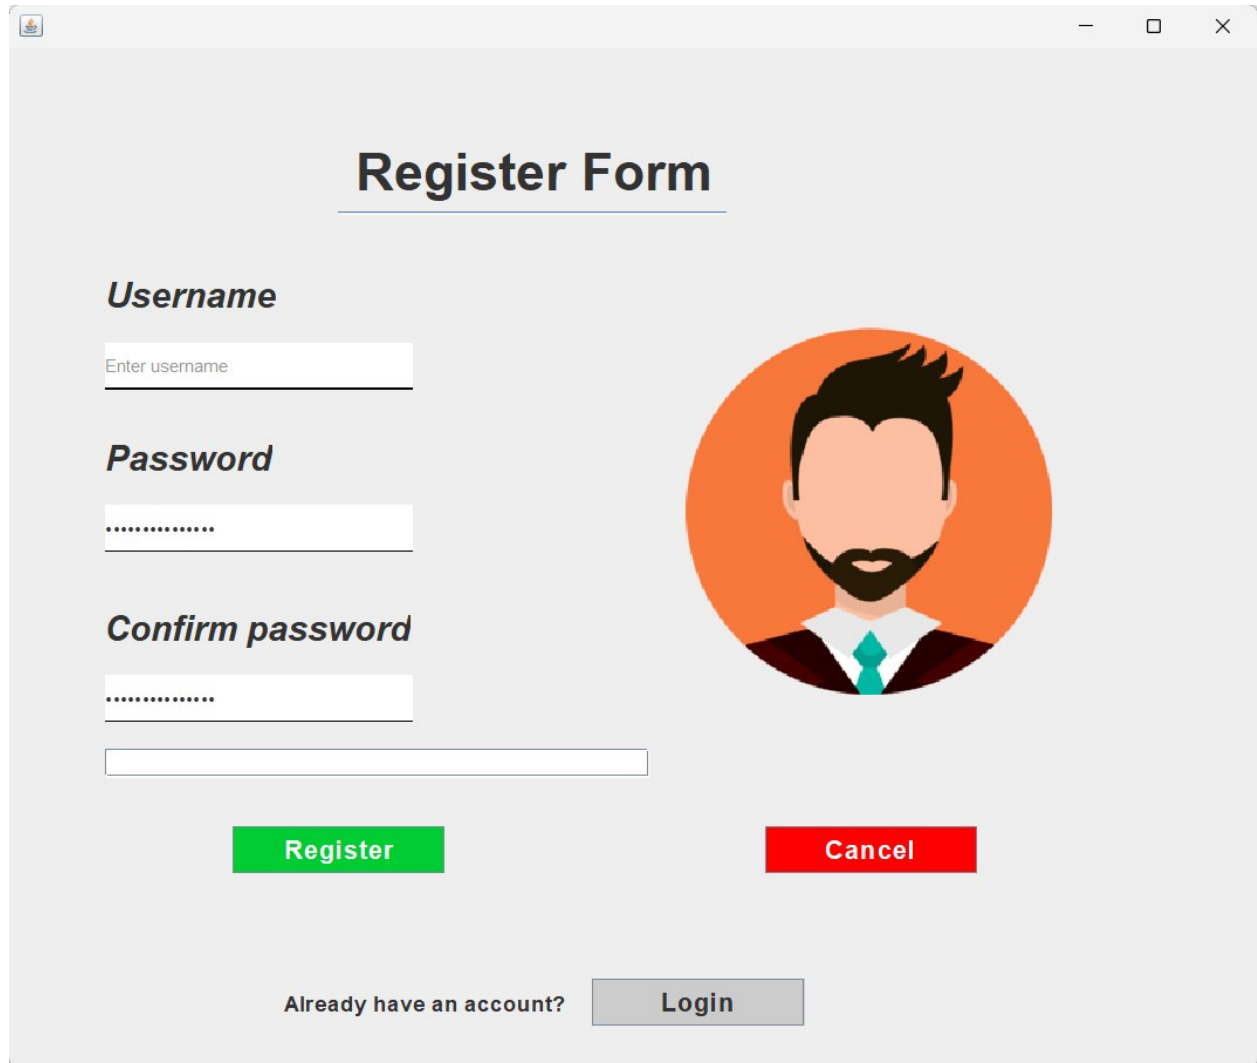

GRAPHICAL USER INTERFACES

Home Page before login

This is the first page that greets a user with contact details and a short description of the services provided by our software. Advertising features (specialities) are mentioned here.

The image shows a web browser window with a registration form. The window has a title bar with standard minimize, maximize, and close buttons. The form is titled "Register Form" in a large, bold, black font, underlined. Below the title, there are three input fields: "Username" with a placeholder "Enter username", "Password" with a masked password ".....", and "Confirm password" with a masked password ".....". To the right of these fields is a circular profile picture placeholder showing a stylized man with dark hair and a beard, wearing a white shirt and a teal tie, against an orange background. Below the input fields, there are two buttons: a green "Register" button and a red "Cancel" button. At the bottom of the form, there is a link "Already have an account?" followed by a grey "Login" button.

Registration Page

This module facilitates the registration of a borrower/renter into our database. It has text fields for username, password and password confirmation.

A screenshot of a web application's login form. The form is titled "Login Form" in a large, bold, black font, centered at the top. Below the title is a circular profile picture placeholder showing a person with brown hair, a white shirt, and a red tie, set against a yellow background. To the right of the profile picture are two input fields. The first is labeled "Username" in a bold, italicized font, with a placeholder text "Enter username". The second is labeled "Password" in a bold, italicized font, with a placeholder of ten dots. Below these fields are two buttons: a red "Cancel" button and a green "Login" button. At the bottom, there is a link "Don't have an account" followed by a grey "Register" button. The entire form is enclosed in a light grey border with standard window controls (minimize, maximize, close) in the top right corner.

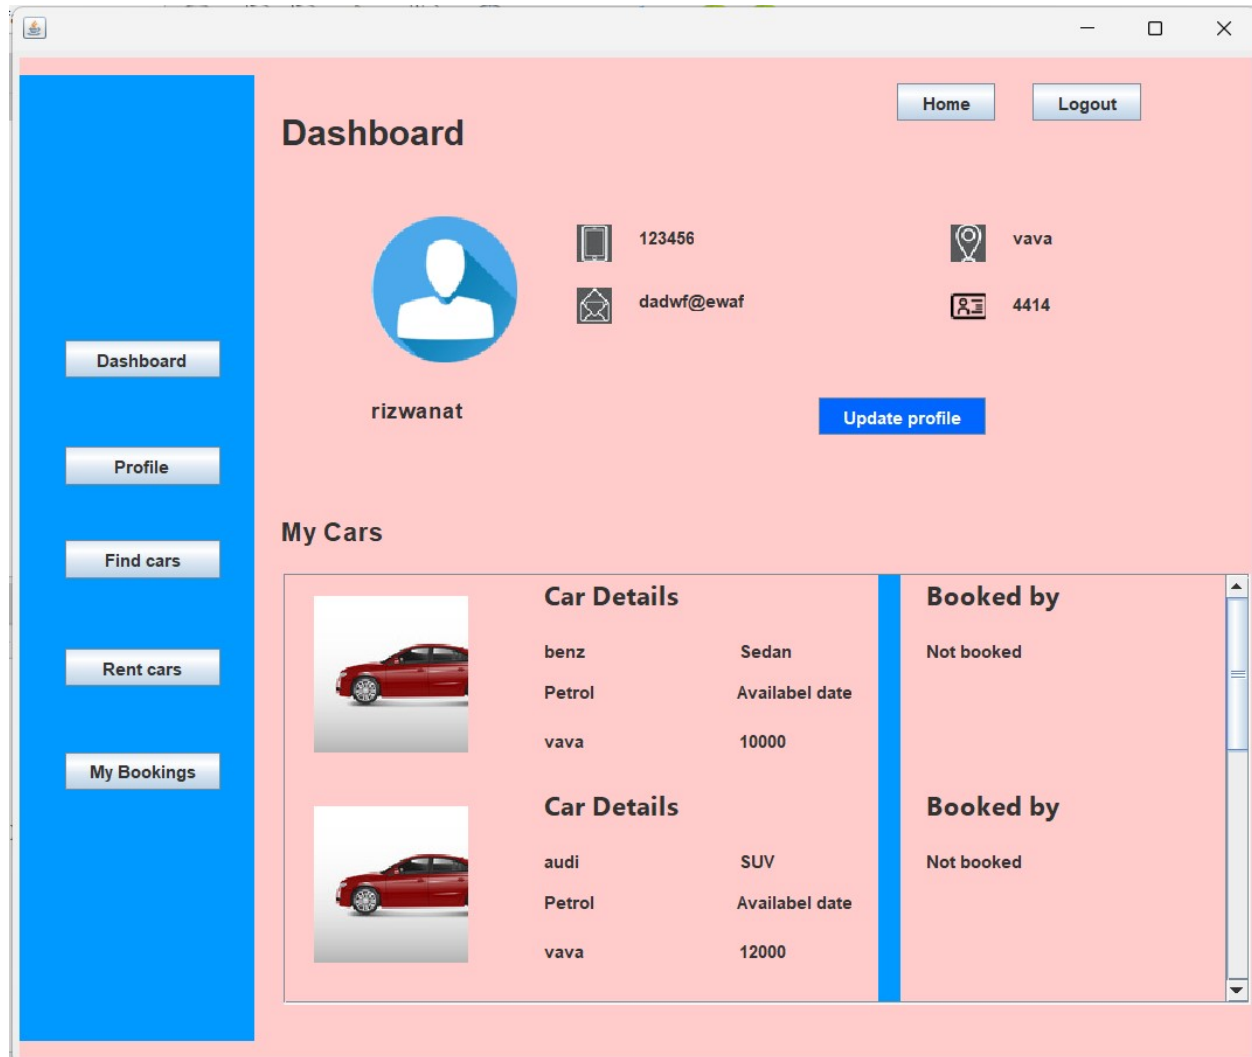

LoginPage

This module deals with logging in of a registered user using their credentials. Username and password are received and entered to User table. Login Button will navigate to next page.

Home Page After Login

The home page visible after logging in has an additional left menu for quick access to various sections of the software. The home page now also provides a direct button to reach the car finding page.

Dashboard

Dashboard is the first option visible in the left menu after logging in. This shows the basic user details along with a list of the user's cars, mentioned in our database for renting out. The bookings for each vehicle are also marked along with their borrower's name.

USER DETAILS

First Name	<input type="text" value="rizwan"/>
Last Name	<input type="text" value="at"/>
Mobile number	<input type="text" value="123456"/>
Email	<input type="text" value="dadwf@ewaf"/>
Location	<input type="text" value="vava"/>
District	<input type="text" value="dffs"/>
Aadhar Number	<input type="text" value="124125"/>
License Number	<input type="text" value="4414"/>
	<input type="text"/>

Update Profile

Update Profile Page

This page is used to update the details of user and the table also get updated on pressing the Update Profile button.
